Make a hanging sign for your ice cream shop!
Put a small amount of glue dots on the top of the 4 popsticks on the front wall of the card shop. Make sure you don't glue it to the side wall. The popstick should align like the picture above. Push down gently to ensure that it is glued in place and wait to dry.

Construct!
Once your popsticks have dried in place, you can build your shop. Fold both A tabs and fit them into the slots labelled A, (popsticks facing out).

Fix the flooring!
Turn your ice cream shop upside down. Fold each of the bottom flaps as shown in the picture. Fix with glue.

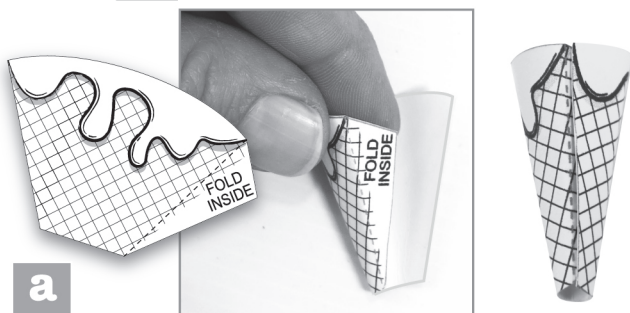

Fold the ice cream sign in half and put a little bit of glue on the hanging sign popstick, this will hold it in place.
